

# The 23rd IEEE Pacific Rim International Symposium on Dependable Computing (PRDC2018)

Taipei, Taiwan, December 4-7, 2018

<http://prdc.dependability.org/PRDC2018>

## General Co-Chairs:

Yennun Huang, Academia Sinica  
Yusung Wu, National Chiao Tung University

## Program Chair:

Hung-Min Sun, National Tsing Hua University

## Fast Abstract Chair:

Chin-Yu Huang, National Tsing Hua University

## Poster Chair:

Shun-Ren Yang, National Tsing Hua University

## Industry Track Chair:

Ares Chao, Industrial Technology Research Institute

## Local Arrangement Chair:

Kate Lin, National Chiao Tung University

## Publicity Chair:

Chun-Ying Huang, National Chiao Tung University

## Publication Chair:

Chia-Mu Yu, National Chung Hsing University

## Finance Chair:

Yu-I Peng, National Taipei University

## Steering Committee:

Yennun Huang, Academia Sinica (Chair)  
Leon Alkalai, California Institute of Technology  
Takashi Nanya, University of Tokyo  
Nobuyasu Kanekawa, Hitachi Research Lab  
Jin Song Dong, National University of Singapore  
Karthik Pattabiraman, University of British Columbia  
Gernot Heiser, University of New South Wales  
Sy-Yen Kuo, National Taiwan University  
Michael Lyu, Chinese University of Hong Kong  
Zhi Jin, Peking University

## TPC members:

Étienne André, Université Paris 13  
Toshiaki Aoki, JAIST  
Ing-Ray Chen, Virginia Tech  
Yi-Shin Chen, National Tsing Hua University  
Tadashi Dohi, Hiroshima University  
Satoshi Fukumoto, Tokyo Metropolitan University  
Masanori Hashimoto, Osaka University  
Naohiro Hayashibara, Kyoto Sangyo University  
Debiao He, Wuhan University  
Sun-Yuan Hsieh, National Cheng Kung University  
Ching-Hsien Hsu, Chung Hua University  
Xinyi Huang, Fujian Normal University  
Hideyuki Ichihara, Hiroshima City University  
Masashi Imai, Hirotsaki University  
Jianhui Jiang, Tongji University  
Zbigniew Kalbarczyk, U. of Illinois at Urbana-Champaign  
Nobuyasu Kanekawa, Hitachi  
Haruhiko Kaneko, Tokyo Institute of Technology  
Dong Seong Kim, University of Canterbury  
Masato Kitakami, Chiba University  
Takashi Kitamura, National Institute of Advanced Industrial Science and Technology  
Kenichi Kourai, Kyushu Institute of Technology  
Sy-Yen Kuo, National Taiwan University  
XiaoWei Li, Chinese Academy of Sciences  
Xinghua Li, Xidian University  
Yang Liu, Nanyang Technological University  
Michael Lyu, Chinese University of Hong Kong  
Brendan Mahony, DSTO  
Bruce McMillin, Missouri Univ. of Science and Technology  
Hiroshi Nakamura, University of Tokyo  
Hiroyuki Okamura, Hiroshima University  
Alex Orailoglu, UC San Diego  
Karthik Pattabiraman, University of British Columbia  
Rui Peng, University of Science and Technology Beijing  
Kouichi Sakurai, Kyushu University  
Kuo-Feng Ssu, National Cheng Kung University  
Neeraj Suri, TU Darmstadt  
Ann Tai, WW Technology Group  
Oliver Theel, Carl von Ossietzky University of Oldenburg  
Tatsuhiko Tsuchiya, Osaka University  
Agnieszka Turek, Warsaw University of Technology  
Vijay Varadharajan, Macquarie University  
Sheng-De Wang, National Taiwan University  
Min Xie, City University of Hong Kong  
Yang Yang, Fuzhou University  
Jyh-haw Yeh, Boise State University  
Wang Ying, Chinese Academy of Sciences  
Haruo Yokota, Tokyo Institute of Technology  
Wei Zhang, Hong Kong Univ. of Science and Technology

## Call for Papers

PRDC 2018 is the twenty-third event in the series of symposia started in 1989 that are devoted to dependable and fault-tolerant computing. PRDC is recognized as the main event in the Pacific area that covers many dimensions of dependability and fault tolerance, encompassing fundamental theoretical approaches, practical experimental projects, and commercial components and systems. As applications of computing systems have permeated into all aspects of daily life, the dependability of computing systems has become increasingly critical. This symposium provides a forum for countries around the Pacific Rim and other areas of the world to exchange ideas for improving the dependability of computing systems.

Topics of interest include (but not limited to):

- Architecture and System Design for Dependability
- Dependability issues in Computer Networks and the Internet
- Dependability issues in Parallel and Distributed Systems
- Dependability issues in Real-time Systems
- Dependability issues in Databases and Transaction Processing Systems
- Dependability issues in Artificial Intelligence and its Applications
- Dependability Issues in Cloud Computing
- Dependability issues in Cyber-Physical Systems
- Dependability issues in Socio-Technical Systems
- Dependability Measurement, Modeling, Evaluation, and Tools
- Cloud Computing Security and Privacy
- Internet of Things Architectures and Protocols
- Internet of Things Security and Privacy
- Fault-tolerant Algorithms and Protocols
- Software Defined Networks Architectures and Protocols
- Software and Hardware Reliability
- Self-healing, Self-protecting, and Fault-tolerant Systems
- Safety-Critical Systems and Software
- Reliability in Web Systems and Applications

## Submission and Publication Information

Manuscripts should be submitted in the following two categories: Regular Papers and Practical Experience Reports. Regular Papers should describe original research (not submitted or published elsewhere) and be not more than 10 pages using IEEE Computer Society camera-ready 8.5"x11" two-column format. Practical Experience Reports (max 6 pages using IEEE format guidelines) should describe an experience or a case study, such as the design and deployment of a system or actual failure and recovery field data. The title page should include a 150-word abstract, five keywords, authors' names and affiliations, and a line specifying whether the submission is a Regular Paper or a Practical Experience Report. The full mailing address, phone, fax, and email address of the corresponding author should be specified.

All submissions must be made electronically (in PDF format) on the submission web site (<https://www.easychair.org/conferences/?conf=prdc2018>). Papers will be reviewed internationally and selected based on their originality, significance, relevance, and clarity of presentation. All accepted papers will be published by IEEE Computer Society Press (EI Indexed). One outstanding paper will be selected to receive the Best Paper Award.

## Important Dates

**Submission deadline:** ~~June 1, 2018~~ **June 30, 2018**

**Notification:** **August 15, 2018**

## Call for Fast Abstracts

Fast Abstracts are lightly-reviewed 2-page manuscripts in IEEE format describing unpublished, in-progress, novel work, opinions or ideas.

**The submission deadline is September 1, 2018**

## Call for Industry Track Submissions

The Industry Track provides a forum for researchers and practitioners to present and debate R&D challenges, practical solutions, case studies, and share field reliability data. Industry Track submissions should be a maximum of 6 pages using IEEE format guidelines.

**The submission deadline is ~~June 1, 2018~~ September 1, 2018**

## Call for Posters

The Poster Session provides a forum to present and discuss works-in-progress with topics related to dependable systems. A poster paper should use the same format as a regular paper but with a maximum of 2 pages.

**The submission Deadline is September 1, 2018**
