CALL FOR PARTICIPATION
**The 38th IEEE Real-Time Systems
 Symposium**
 December 5 - December 8, Paris, France
 Sponsored by the IEEE Computer Society Technical
 Committee on Real-Time Systems

Scope of the Conference

The IEEE Real-Time Systems Symposium (RTSS) is the premier conference in the area of real-time systems, presenting innovations in the field with respect to theory and practice. RTSS provides a forum for the presentation of high-quality, original research covering all aspects of real-time systems theory, design, analysis, implementation, evaluation, and experiences. RTSS'17 continues the trend of making RTSS an expansive and inclusive symposium, looking to embrace new and emerging areas of real-time systems research.

RTSS'17 presentations concern contributions in all areas of real-time systems, including operating systems, networks, middleware, compilers, tools, modeling, scheduling, QoS support, resource management, testing and debugging, design and verification, hardware/software co-design, fault tolerance, security, power and thermal management, embedded platforms, and system experimentation and deployment experiences.

In addition to the main real-time track, we continue the successful format of previous years with three specialized tracks:

- Cyber-physical systems
- HW-SW integration and system level design
- Internet of Things

Program available at

<http://2017.rtss.org/program/>

Organizing committee

General Chair

Frank Muller, North Carolina State University

Ex-Officio (TC Chair)

James Anderson, University of North Carolina at Chapel Hill

Program Chair

Isabelle Puaut, Université de Rennes 1/IRISA

Finance Chair

Karl-Erik Arzen, Lund University

Local arrangements chair

Liliana Cucu-Grosjean, Inria Paris

Important Dates

Registration Early Deadline : November 1, 2017

Workshops : December 5

Symposium: December 6 to December 8

Local information

The conference is organized in the neo-classical building of the « Saint Augustin » military cercle. Located in the heart of Paris, the well known chef of « Saint Augustin » reserves to his guests a exquisite visit of the French cuisine and its famous wines. The lounges inspired by the pure Versailles vision, complete the unique view of the French style that the conference participants will discover.
