-- ABOUT VECoS --

The VECoS conference series focuses on the analysis of computer and communication systems, where functional and extra-functional properties are inter-related. VECoS encourages the cross-fertilization between the various formal verification and evaluation approaches, methods and techniques, especially those developed for concurrent and distributed hardware/software systems. VECoS is referenced by <https://conferences-computer.science/> and ranked as Category C by CORE

-- GENERAL INFORMATION ON SUBMISSIONS --

Submitted papers must be no longer than 15 pages (including bibliography), written in English, presenting original work and not be submitted for publication elsewhere.

Papers must be submitted electronically in PDF format through EasyChair

(<https://easychair.org/conferences/?conf=vecos2026>), using the LNCS format (Springer, version 2.20 or later). Accepted papers will appear in the conference proceedings. At least one author of each accepted paper must attend the conference and present the paper.

The conference proceedings will be published in the Springer-Verlag Lecture Notes in Computer Science (LNCS) series.

Authors of selected papers will be invited to submit extended and revised versions of their work for consideration in a special issue of an indexed international journal ([ISSE](#): Innovations in Systems and Software Engineering, [IJCCBS](#): International Journal of Critical Computer-Based Systems).
